Security Division

What We Do

Protection of Asset

- ▶ With our extensive partnership with Mobotour, USA. You should be rest assured that your Asset has the highest level of protection if you put it in our care.
- ▶ We have the required manpower to ensure that you do not loose your assets at all.
- ▶ We offer Total Protection, Total Security & Total Peace of Mind using 21st century technological tools

Private Security Equipment

- ▶ Kreeno D-Fence provides a professional service tailored to the needs of each client and only for that client security works. The ability of our staff and the power of our combined team are second to none, but we understand the importance of giving value for money. We have the experience to assess correctly the time needed to carry out the work for which we have quoted, if we get that wrong then we lose out not you.
- ▶ We provide the best and most sophisticated **security gadget to prevent intrusion** by the enemy.

Continues..

Security & Surveillance of Territory

- ▶ In partnership with Israeli Satellite Software Operator, we proffer security surveillance and monitoring service.
- ▶ **Kreeno "SatLock" strictly for GOVERNMENTS**
Solution for national security, Land, air and maritime borders, based on reliable and trustable information and software.
- ▶ Some capabilities of the system:
 - ▶ Monitoring, tracking and recognition of illegal boats and aircraft
 - ▶ Monitoring, tracking and recognition of suspicious Cargo and / or with a high level of risk
 - ▶ Monitoring, tracking and recognition of crew with high level of risk.

Executive Protection Services

- ▶ **Are you a high Impact Individual or Public Personality, Protect yourself and your family from Account Take Over and Identity Theft**
- ▶ Detect when your personal passwords are compromised online. Prevent these passwords from being reused to gain sensitive entry to your Assets. Few things are as misleading as the illusion of security or safety. Hope is free, but it is never enough to hope one is safe, we have to guarantee that safety. With Profile Intelligence, you can say bye to the vulnerabilities that exist online and offline in today's world.
- ▶ We have taken the time and invested thousands of dollars to offer two products for discerning individuals; we named the products the C-SUITE PLAN and the EXECUTIVE PLAN

Research Division

5. Bill of quantity

5. Project plan & execution

Risk Engineering & Asset Evaluation

▶ Risk Engineering Services

- ▶ Our constantly changing world has created a great amount of uncertainties as a result of the increased complexities of new technologies, globalization, pandemic, and climate change. Because of the global footprint created by major corporations and emerging disruptors, an expert approach is required to assess the various risks and constantly developing and evaluating effective ways to mitigate and prevent losses.
- ▶ It is on this understanding, we have developed critical capabilities:
 - * Thorough understanding of emerging technologies and evolving global engineering standards
 - * Comprehensive knowledge of failure modes and loss scenarios
 - * Complete awareness of local business and cultural environments
- ▶ Armed with these specialized capabilities, RISKHR, Risk plan, conduct risk surveys and assessments in line with the following principles:
 - ▶ 1. We focus on process safety and loss prevention
 - ▶ 2. We utilize our understanding of the common causes of losses
 - ▶ 3. We appreciate the importance of evidence-based risk engineering
 - ▶ 4. We emphasize the importance of effective implementation and compliance
 - ▶ 5. We offer a tailor-made approach to our client needs, based on open and direct communication with all stakeholders including insurance managers, finance, and operations
 - ▶ 6. We make reliable and effective recommendations for risk improvement measures
 - ▶ 7. We offer a follow-up visit to ensure pro implementation of risk improvements

Continues..

- ▶ We have invested heavily in collaborative partnership of expert team of risk software engineers and business security managers who provide specialist support to clients concerned about engineering risks and the impact these risks have on their businesses.

- ▶ **Expertise**

Our experts have proven instrumental at providing risk engineering analysis to many critical sectors, including:

- ▶ Oil, Gas & Petrochemical: Our experts have surveyed and provided expert risk analysis for various oil and gas assets, as well as to E & P Drilling Facilities that realize that if not properly managed and monitored, these risks can lead to catastrophic reduction in expected output.
- ▶ Marine (shipping & transportation): The safety of cargo and shipping vessels, especially when facing dynamic and changing risks, is vital to economic growth worldwide. Our teams have extensive knowledge that allows us to offer a specialized risk assessment of all marine hulls and cargo, as well as inland transportation.

- ▶ Our services have been used in many cases including:

1. Liability assessment of freight and warehouse keepers
2. Assessment of cargo (all risks and stock) throughout
3. Hull and machinery risk surveys
4. Risk assessment of port, harbour, and terminal operations and others.

- ▶ Renewable energy: Utilizing their expertise in investigating losses in renewable energy plants (including solar, wind, hydro, geothermal, and waste-to-energy), RISKHR experts have the knowledge and expertise to recognize and assist with the management of inherent risks in the industry.

Kreeno Plus Counter Fraud Division

- ▶ Kreeno Debt Recovery Services are designed to reduce the time your team spends on delinquent accounts and to expedite cash flow. By utilizing our highly trained staff, you'll be able to allocate resources on other important business matters.
- ▶ A combination of letters and phone contact from a third party agency, advanced skip tracing techniques, probability-to-pay scores, and credit bureau reporting assists us with the liquidation of your accounts. Our client service approach and liquidation results positions us as one of the most sought after agencies in the industry. Communication is key to our business relationships and providing a 24/7 secure view of our work through any web browser exhibits our commitment to you.
- ▶ Kreeno Assets recovery services Uses a team of experienced and highly trained professionals, utilizing powerful database and investigative search tools, to locate assets that have been lost or previously deemed unrecoverable by individuals and/or businesses.
- ▶ Our search/investigative tools and techniques have been honed over many years of experience in the judgment enforcement and collection areas, and now we are putting those tools to work for creditors and owners of lost assets. Specifically, we assist in the recovery of assets where the owners have either lost touch with their property, never claimed properties that were left to them in an estate, or whom should have taken control over certain property after a corporate reorganization or disposition but failed to do so.

Cyber Security

List of services under KreenoPlus Cyber Security:-

- ▶ Trace, Track & Arrest of Fake Facebook & other Social Media Imposters / Scammers.

 - ▶ Arrest of Fraudsters Using Local Phone Calls.
- ▶ Visit www.kreenoplus.com
 - ▶ Call Maura on +2347088325000

Business Process Automation

- ▶ If you are planning to invest in business automation, your prime objectives would be to remove redundant workflows, increase efficiency for internal and customer facing processes as well as to save on operational costs and time. Kreeno IT Division introduces Business automation services to develop custom software that aim at cost-efficient, streamlined and error-free solutions. By creating customized software to bridge disparate functionalities, automation through us will help you identify and eliminate repetitive processes.
- ▶ Customized Solutions For Every Business Process
 - ▶ **Business Process Automation**
 - ▶ **Financial Automation**
 - ▶ **Facilities Automation**
 - ▶ **Store automation**
 - ▶ **SAAS**
- ▶ With our experience in various business verticals and a team of dedicated IT professionals, we will help you develop and deploy speedy solutions to increase revenue opportunities.

IT Managed Services

- ▶ Kreeno IT Management services enables organization to transfer all or part of the day-to-day management responsibility for a customer's network environment (including LAN hardware and software, WAN — voice and data — and voice network hardware and software) and, in some cases, the ownership of the technology or personnel assets, to us.
- ▶ These services may include system operation or support, capacity planning, asset management, availability management, performance management, administration, security, remote monitoring, technical diagnostics/troubleshooting, configuration management, system repair management and generation of management reports. Network remote monitoring and management, and backup and recovery services, also fall into this category when some degree of management is included in the service.

- ▶ our full IT managedservices solution, guarantees that your organization stays up and running all while safeguarding your systems security and reliability at a cost effective price. We believe that you have more criticalissues to deal with than management of network assets or [help desk support](#). That said, as an IT leader within your organizationwe make sure all network infrastructure is running predictably, optimally, and securely.

Software & Web Development

- ▶ From desktop apps to web apps to mobile apps, we can help you weigh the pros and cons of each to find the solution that is right for you and make your software dream a reality.
- ▶ From the initial envision and plan process through to the ultimate build, stabilize and deploy phases, Entrance has a proven track record of delivering software projects using our standards-based approach.

▶ Application we develop

- ▶ Software Application
- ▶ Mobile Application
- ▶ Web Application

We'll finish your project on time and make sure your users receive training & support.

Business Consulting

EmoRisk Employee's Audit

Kreeno Holdings in technical partnership with an Israeli software company known as Logical Commander, developed a system to measure Risk within corporations and organizations in Real Time, this system is in a very high level of exactitude and we measure the organization risk levels and employees' levels (human factor) per person.

EmoRisk

System for assistance control, monitoring, detection and location in every worker, emotions and psychosocial factors in real time.

Work – related stress, violence and any other psychosocial alteration in the workplace are conflicts that concern the authorities and become the responsibility of the employer.

What Risks Do We Detect?

Fraud Detection | Bribery and kickbacks | Extortion Cases | Leaks of confidential information | Robbery and stealing | use of illegal drugs | Gambling | Alcohol Consumption | Sexual Harassment | Company Loyalty | Detection of workers' sentiment and emotional status | Personal, organizational and corporate risk detection | Detection of other criminal actions and attitudes such as organized crime, terrorism, sexual harassment, bribes, influence peddling, traffic, child labor and **much more!**

Other Consulting Services

Enterprise Development and Corporate Turnaround Services

- ▶ At Kreeno, we help business owners and leaders solve their most critical challenges by implementing our Turnaround Strategies.
- ▶ **Why Trust Your Business with Us?**
 - ▶ We secure time and support from your financiers/creditors.
 - ▶ We're experts in securing funding solutions.
 - ▶ We significantly improve cash flow in the first 100 days.

We don't just present you with our strategy. We work with you every step of the way "on the ground" supporting every aspect of the turnaround process.

Business Plan Development Services

- ▶ A business plan lays the foundation for your business. Especially if you are a start-up, or if your company or consortium is developing new products or services, a business plan is your roadmap. Having a solid business plan improves your chances of being successful by giving you direction, visualizing potential risks, assessing viability, and assisting with planning. It can also help you get funding from external parties. We can help you compile the necessary information and set up a comprehensive business plan.
